November 18th, 2020

FOR IMMEDIATE RELEASE!!

Democracy is realized by granting people the freedom of expression.

All Citizens should be given the right to freedom of expression and to support the candidates of their choice without being subjected to intimidation and violence.

We therefore strongly condemn and discourage these acts of violence and lawlessness and ask that the authorities carry out justice to the people whose human rights are abused. The police officers should restrain from acts of impunity as shown in Uganda today and every Presidential Candidate should be free to campaign without any form of intimidation but according to the guidelines stipulated by the Electoral Commission along with the SOPs for COVID-19.

Our sincere condolences to the families of those that lost their lives today in this violent fracas.

Again, we echo our prior sentiments and call for a Free and Fair process as Uganda prepares for the January 2021 Elections.

For God and Our Country Uganda!

Sincerely,

Henrietta Nairuba Wamala
President, Ugandan North American Association
